## HIGH SPEED AUTOMATIC LETTER OPENER

### Milling Cutter Technology

Protects the contents from being cut or damaged. Removes up to 3mm (1/8") of the envelope edge. The removed material is in the form of tiny chips, which are deposited in the waste bin. Creates a soft, feathered edge opening, which prevents paper cuts and gives easy access to the contents.

### Mixed Thickness Separator

This separator design ensures that only one envelope passes through the machine at a time maximizing separation and improving cut quality.

### High Speed

Opens up to 24,000 envelopes per hour. Opens mixed mail, from the smallest to the largest, completely. Opens up to 6mm (1/4") thick envelopes. Entire system built to handle large flats and envelopes.

### Simple and Reliable

High degree of operational reliability

### Heavy Duty

Solid metal construction throughout. Made of steel using the highest quality of components. Has two motors for better performance and a longer life.

### Easy to Operate

## SPECIFICATIONS

### ENVELOPE SIZE

Maximum 260 x 330mm (10.2" x 13.0")

### THICKNESS

Maximum Up to 6mm (1/4")

### PERFORMANCE

Theoretical speed 24,000 envelopes per hour  
Production speed 8,000 envelopes per hour

If you have a trained octopus as an operator, revert to the theoretical speed

### ACOUSTICAL NOISE

Standby 63dB  
Operating 78dB

### SYSTEM DIMENSIONS

Length 710mm (28")  
Width 460mm (18")  
Height 335mm (13.5")  
Weight 36kg (79lbs)
