AS-960/990
THE ADDRESSING SOLUTION THAT HAS IT ALL

High-Performance Tabletop Addressing, Barcoding and Graphics Solutions

AS-960/990
SAVE MONEY AND INCREASE RESPONSE RATES

It's the high-speed, heavy-duty professional tabletop address and barcode printer built with HP Inkjet Technology. The AS-960 and AS-990 allow your organization to print crisp, professional messages which get noticed and opened, including addresses, return addresses, the latest USPS barcodes, such as the Intelligent Mail® barcode, and personalized messages. You can even include your company logo - all in one pass, and with 6 or 9 fixed print heads, you can print absolutely anywhere on your mailpiece, even with flats. These powerhouses move with speeds of up to 26,000 envelopes per hour.

EASE OF USE

All of the manual functions of the AS-960 and AS-990 are controlled by Neopost's address quality management software, eliminating the cumbersome operation that casual operators are faced with. You can easily select new jobs and run them with ease. Our software provides an intuitive print dashboard interface, offering instant feedback about the status of the various print jobs.

IMAGE IS EVERYTHING

Our patented HP printing technology produces true 600x600 dots per inch printed images. This means sharp, crisp, more easily readable addresses and professional appearance, with a print area of up to 4.5 inches. With the AS-960 and AS-990, you get a clear, consistent, machine-readable barcode that allows your document to fly through the Postal Service reading systems, increasing your productivity. It even lowers your printing costs.

APPLICATION VERSATILITY

The AS-960 and AS-990 support documents up to 3/8" thick, and with the robust integrated feeder provide the greatest flexibility in mailing applications, supporting envelopes, postcards, newspapers, brochures, newsletters, calendars, booklets and catalogs.

The versatility of the AS-960 and AS-990's multiple print heads combined with spot colors and personalized messages increase the impact of your mail piece.

ADDRESSING

Print custom attention-grabbing messages using any TrueType font.

SHIPPING DISCOUNTS

Neopost CASS™-compliant address quality management software certifies your mail for USPS discounts and reduces your rate of returns.

FLEXIBILITY

Add a conveyor/stacker and dryer to run larger print jobs with ease.

Print on items up to 3/8" thick or as large as 15" x 20".
