MIX IT UP - THE IS-440 SORTS IT OUT AND GETS YOU STARTED

Do you need to process different sizes and shapes of envelopes? **No Problem.** Using Differential Weighing, simply place all your mail on the Weighing Platform, remove an envelope from the stack and the correct postage amount is calculated automatically. With Smart Start technology, each time an envelope is removed from the Weighing Platform in Differential Weighing mode, the Load 'n' Go Autofeeder starts automatically and is ready to process mail that is placed into the Feeder or dispense a label with the correct postage amount.

STAY CONNECTED WITH A LAN

Save time and increase efficiency by taking advantage of the standard LAN connection that automatically connects to any network type. Enjoy fast and easy statistic uploads, rate change updates, re-crediting, system diagnostics, feature upgrades and software downloads. Running securely via your internal network, the LAN connection eliminates the need for a traditional analog phone line.

PRICING YOUR MAIL HAS NEVER BEEN EASIER

Don't let postage rates slow you down. Whatever rate you need is in the IS-440 Rate Wizard. Use the Rate Shortcuts or Last Rate Used menus to save even more time by eliminating keystrokes.
